

Questions for your pharmacist

Bring this sheet to the pharmacy or read it over the phone. Write the answers next to each question. It lists questions only.

- ☐ 1. What is the strength on the label per container, and what is it per mL?

- ☐ 2. Is the amount for each use written in mg, in mL or in units? Can you write all three for my prescribed amount?

- ☐ 3. Which syringe size goes with this product, and can you show me how to read its marks?

- ☐ 4. What is the discard-by date once I first use this vial, and where is it printed?

- ☐ 5. Your instructions give a number of days. FDA's page mentions 28 days. Which one applies to my vial?

- ☐ 6. Do I need a new needle and syringe for every use of this vial?

- ☐ 7. Who compounded this product, and how do I reach them with questions about the label or instructions?

- ☐ 8. What should I do if a shipment arrives warm or without enough cold packs?

- ☐ 9. Is this the manufacturer's product or a compounded one?

- ☐ 10. Who do I call with questions, and how do I report a problem?

Peptide Dose Tracker. This sheet does not give medical advice and does not recommend any product or amount.
